

High Wave Candles

Monday, September 7, 2020

5:35 PM

- HW candles specially with good volume & found at support/resistance are good reversal
- When you find HW candles, mark it's high & low
 - Direction of break out/down, you can trade in that direction
- HW candles at Top + BD it's Low : Good to sell
- When you see a HW candle, mark the high & Low
 - Always better to **"Exit out of the trade and closely watch"**
 - Check whether it makes any chart pattern, based on that you can trade
- Eg: of Bottoming sign

- Example-2 - HW candle with heavy volume is a cautious sign
