

- Try to figure out below steps in both Wave & Ripple
- Step1: Find out the previous trend
  - If the trend is an up / down trend, there are more chance to figure out a Chart pattern
    - If the trend is up trend, there are more chances that a Bullish reversal pattern comes previously
      - Inverted Head & Shoulder
      - Double Bottom
      - Cup & Handle
    - If the trend is down trend, there are more chances that a Bearish reversal pattern comes previously
      - Head & Shoulder
      - Double Top
  - Find out break out/ down by plotting the trend line (resistance or support). could figure out the current trend after break out/down.
- Step2: Find out near by continuation pattern in between up/down trend if any
- Step3: Plot resistance & support trend line by connecting near by candles
- Step4: Try to figure out the Break out/down
  - Break Out
    - If chart pattern is present
      - One of the target will be "Previous Resistance Line"
      - & Chart pattern target
    - If no chart pattern present
      - Only one of the target & that will be "Previous Resistance Line"
  - Break down
    - If chart pattern is present
      - One of the target will be "Previous Support Line"
      - & Chart pattern target
    - If no chart pattern present
      - Only one of the target & that will be "Previous Support Line"
